

ENVIRONMENTAL TIP #51

DID YOU KNOW that volunteers are needed for construction of a Stormwater Education Station and Rain Garden at Mill Stream Park?

When: Earth Day, Tuesday, April 22, 2014 3:00 p.m. – 5:30 p.m.

Bring your carpentry and gardening skills and help the Town of Centreville construct a Stormwater Education Station and Rain Garden at Mill Stream Park in Centreville – A Community Environmental Partnership

Hands-on training will be provided for volunteers about stormwater management technologies. Kids are welcome!

The Stormwater Education Station will be a “Faux” House with examples of:

- ✚ A green roof
- ✚ Gutter and downspouts directed to rain barrels
- ✚ Permeable pavers
- ✚ Educational signage attached to windows to inform residents about what they can do to prevent stormwater runoff
- ✚ A rain garden with native plants

Tools exist that can prevent stormwater runoff. Are you interested?

Participate in this event and learn how you can reduce polluted runoff from entering the Corsica River.
